OUR HEART'S IN THE COUNTRY

Music & Lyrics by Darren Coggan © 2012

I look toward the East
See the wonder of a new day begin
This beauty that surrounds me
Feels like a next of kin
If home is where the heart is
Then there's no place in the world I'd rather be

Our heart's in the country
Of this great southern land
Our heart's in the country
It's you and it's me
Our heart's in the Country

I want to touch the ocean
I want to feel a bright red desert sky
I want to see the Southern Cross
Shining out beyond the great divide
Home is where the heart is
And there is only one place that could be

Our heart's in the country
Of this great southern land
Our heart's in the country
It's you and it's me
Our heart's in the Country
