Foreword

The Bureau of Infrastructure and Transport Research Economics (BITRE) monitors the punctuality and reliability of major domestic airlines operating between Australian airports. The purpose of this is to allow for evaluation of overall industry and individual airline performance, so that consumers of air travel can make informed decisions.

The following domestic airlines currently report this information monthly to the BITRE: Jetstar, Qantas, QantasLink, Regional Express, Virgin Australia and Virgin Australia Regional Airlines. Data has been gathered since November 2003, although some airlines commenced reporting at a later date, including Jetstar which first reported in May 2004, MacAir in July 2005, Tigerair Australia in April 2008 and Virgin Australia Regional Airlines in May 2013. MacAir ceased operations in February 2009 and data was not received for December 2008 onwards. Virgin Blue was rebranded as Virgin Australia in May 2011 and Tiger Airways was rebranded as Tigerair Australia in July 2013 and time series data in Microsoft Excel spread sheet format on the BITRE website have been revised to reflect these changes. Services operated by Skywest on behalf of Virgin Australia using ATR/F100 aircraft commenced in November 2011 and were shown separately as Virgin Australia – ATR/F100 Operations. Virgin Australia Regional Airlines commenced operations in May 2013. It was formed after the acquisition of Skywest by Virgin Australia and represented a combination of operations previously reported under Skywest and Virgin Australia – ATR/F100 Operations. In January 2016, Virgin Australia transferred their ATR fleet from Virgin Australia Regional Airlines to Virgin Australia. Tigerair Australia ceased operations in March 2020 and data was not received for that month.

Information presented in this report is for Australian domestic routes for which the passenger load averaged 8 000 or more passengers per month over the previous six months and where two or more airlines operated in competition on those routes. There were 54 routes that met this definition in February 2021. Over time, routes which meet these criteria change as airline networks and traffic levels vary.

Participating airlines report their overall monthly network performance where this is possible.

Total industry figures encompass all services operated by reporting airlines only. These airlines collectively carried over 95 per cent of total domestic passengers (regular public transport only) in 2019.

The method of capturing on time performance varies between airlines utilising different recording systems. Jetstar and Qantas jet aircraft use Aircraft Communication Addressing and Reporting System (ACARS) to electronically measure on time performance. Regional Express, Tigerair Australia, Virgin Australia, Virgin Australia Regional Airlines and the Qantas non-jet fleet record on time performance manually using records from pilots, gate agents and/or ground crews.

After initial data is collected, aggregate reports are audited internally by participating airlines prior to publication.

Reports and detailed time series data in Microsoft Excel spreadsheet format are available from the BITRE website at: <http://www.bitre.gov.au/statistics/aviation/otphome.aspx>.

Industry performance

For February 2021, on time performance over all routes operated by participating airlines (Jetstar, Qantas, QantasLink, Regional Express, Virgin Australia and Virgin Australia Regional Airlines) averaged 90.3 per cent for on time arrivals and 89.9 per cent for on time departures. The cancellation rate for the month was 8.7 per cent. The equivalent figures for February 2020 were 75.3 per cent for on time arrivals, 77.9 per cent for on time departures and 3.0 per cent for cancellations.

This month's on time arrivals figure was higher than the long term average performance for all routes (82.2 per cent) and the on time departures figure was also higher than the long term average (83.5 per cent). The rate of cancellations was higher than the long term average of 1.7 per cent.

The Virgin Australia network (Virgin Australia and Virgin Australia Regional Airlines combined operations) recorded 91.8 per cent for on time arrivals while the Qantas network (Qantas and QantasLink combined operations) recorded 89.4 per cent. Virgin Australia achieved the highest on time arrivals among the major domestic airlines at 92.2 per cent followed by Jetstar at 90.8 per cent and Qantas at 90.3 per cent. Of the regional airlines, Regional Express recorded 91.3 per cent for on time arrivals, followed by QantasLink at 88.8 per cent and Virgin Australia Regional Airlines at 85.3 per cent.

The Virgin Australia network recorded 90.1 per cent for on time departures while the Qantas network recorded 89.9 per cent. Qantas achieved the highest level of on time departures among the major domestic airlines for February 2021 at 90.6 per cent, followed by Virgin Australia at 90.3 per cent and Jetstar at 88.5 per cent. Of the regional airlines, Regional Express recorded 92.3 per cent for on time departures, followed by QantasLink at 89.5 per cent and Virgin Australia Regional Airlines at 87.8 per cent.

Jetstar recorded the highest percentage of cancellations (at 15.2 per cent) during the month, followed by Qantas (at 10.6 per cent), Virgin Australia (at 9.6 per cent), Virgin Australia Regional Airlines (at 5.9 per cent), QantasLink (at 5.4 per cent) and Regional Express (at 1.0 per cent).

Airlines' on time performance varies across the routes they serve. Individual route data by specific airline for 54 routes are shown on pages 9-19.

Of the 54 routes which met the criteria for on time performance reporting in February 2021, the Cairns-Sydney and Adelaide-Alice Springs routes had the highest percentage of on time arrivals (100.0 per cent) and the Adelaide-Canberra route had the highest percentage of on time departures (97.8 per cent). The Perth-Broome route had the lowest percentage of on time arrivals (64.1 per cent) and the Perth-Brisbane route had the lowest percentage of on time departures (63.2 per cent).

Cancellations were highest on the Adelaide-Melbourne route at 36.3 per cent, followed by the Melbourne-Adelaide route at 36.1 per cent, the Perth-Melbourne route at 30.8 per cent, the Cairns-Melbourne and Melbourne-Cairns routes at 29.1 per cent and the Melbourne-Gold Coast

route at 27.6 per cent. COVID-19 related travel restrictions and border closures continue to affect the cancellation rate.

Alice Springs Airport recorded the highest percentage of on time arrivals (100.0 per cent) and Mackay airport recorded the highest percentage of on time departures (96.9 per cent). Broome Airport recorded the lowest percentage of on time arrivals (64.1 per cent) and Newman Airport recorded the lowest percentage of on time departures (75.4 per cent). These figures only refer to reported routes and do not cover all flights at these airports.

Individual routes

On time performance is reported for all routes where the passenger load averages over 8000 passengers per month over the previous six months, and where two or more airlines operate in competition on those routes. There are now 54 routes which meet this definition. Over time, however, routes which meet this definition may change as airline networks and traffic levels vary.

Airports

On time performance is reported for all routes where the passenger load averages over 8000 passengers per month, and where two or more airlines operate in competition. The following data reports by airport against flights operated on those routes only. This month, 8 major city airports and 27 regional city airports are covered.

Definitions

On time arrival	A flight arrival is counted as "on time" if it arrived at the gate before 15 minutes after the scheduled arrival time shown in the carriers' schedule. Neither diverted nor cancelled flights count as on time.
On time departure	A flight departure is counted as "on time" if it departs the gate before 15 minutes after the scheduled departure time shown in the carriers' schedule.
Cancellation	A flight removed from service within 7 days of scheduled departure is regarded as a cancellation.
On time departure percentage	The percentage of on time departures is measured against the number of departures <i>operated</i> on any particular sector.
On time arrival percentage	The percentage of on time arrivals is measured against the number of arrivals <i>operated</i> on any particular sector.
Cancellation percentage	The percentage of cancellations is measured against the number of services <i>scheduled</i> on any particular sector.
