## **Rex suspends Mt Gambier flights**

Regional Express (Rex) airlines has announced the suspension of eight services to and from Mt Gambier.

Six of the service cuts are to the Adelaide schedule and two are to the Melbourne schedule, starting from May 24.

Rex spokeswoman Danielle Ross says the flight reductions are a direct result of the pilot shortage.

She says the airline hopes to resume the services later in the year as a number of graduating cadets enter the service.

Customers holding reservations for the affected services are asked to contact Rex for a full refund.
