MEDIA RELEASE

REX AND FLIGHT CENTRE TRAVEL GROUP TAKE-OFF WITH NEW COMMERCIAL AGREEMENT

Rex today announced it has signed an agreement with the Flight Centre Travel Group (FLT) which has significantly extended the airline's consumer reach and commercial footprint in the aviation industry.

The deal is the latest of several new contracts negotiated over recent months by the airline and aligns Rex with one of the world's largest travel retailers and corporate travel managers.

The preferred partnership agreement with FLT enables the company to sell and promote Rex to its large leisure and corporate travel customer-base throughout Australia and around the world.

"This will give consumers even greater access to both our national, regional and domestic networks and will further enhance our brand awareness," Rex Deputy Chairman, the Hon John Sharp AM, said.

"It also means we will be in an even stronger position once lockdowns are lifted and borders re-open to capture more of the pent up demand from travellers keen to fly again."

Rex's domestic jet network currently encompasses four capital cities – Melbourne, Sydney, Adelaide and Canberra, plus the Gold Coast – while also covering 61 regional and remote centres throughout Australia.

Flight Centre Travel Group chief executive officer Graham "Skroo" Turner said: "We are delighted to enter into this agreement with Rex for the benefit of our customers who book across our diverse business streams.

"Rex's customer centric principles align with ours and its dedication to providing vital air services, particularly to our remote and regional communities is significant. We look forward to playing a part in Rex's exciting growth strategy moving forward."

Rex is Australia's largest independent regional and domestic airline operating a fleet of 60 Saab 340 and six Boeing 737-800NG aircraft to 61 destinations throughout all states in Australia. In addition to the airline Rex, the Rex Group comprises wholly owned subsidiaries Pel-Air Aviation (air freight, aeromedical and charter operator) and the two pilot academies, Australian Airline Pilot Academy in Wagga Wagga and Ballarat.
