Foreword

The Bureau of Infrastructure and Transport Research Economics (BITRE) monitors the punctuality and reliability of major domestic airlines operating between Australian airports. The purpose of this is to allow for evaluation of overall industry and individual airline performance, so that consumers of air travel can make informed decisions.

The following domestic airlines currently report this information monthly to the BITRE: Jetstar, Qantas, QantasLink, Regional Express, Virgin Australia and Virgin Australia Regional Airlines.

Data has been gathered since November 2003, although some airlines commenced reporting at a later date, including Jetstar which first reported in May 2004, MacAir in July 2005, Tigerair Australia in April 2008 and Virgin Australia Regional Airlines in May 2013. MacAir ceased operations in February 2009 and data was not received for December 2008 onwards. Tigerair Australia ceased operations in March 2020 and data was not received for that month.

Virgin Blue was rebranded as Virgin Australia in May 2011 and Tiger Airways was rebranded as Tigerair Australia in July 2013 and time series data in Microsoft Excel spread sheet format on the BITRE website have been revised to reflect these changes.

Services operated by Skywest on behalf of Virgin Australia using ATR/F100 aircraft commenced in November 2011 and were shown separately as Virgin Australia – ATR/F100 Operations. Virgin Australia Regional Airlines commenced operations in May 2013. It was formed after the acquisition of Skywest by Virgin Australia and represented a combination of operations previously reported under Skywest and Virgin Australia – ATR/F100 Operations. In January 2016, Virgin Australia transferred their ATR fleet from Virgin Australia Regional Airlines to Virgin Australia.

Information presented in this report is for Australian domestic routes for which the passenger load averaged 8 000 or more passengers per month over the previous six months and where two or more airlines operated in competition on those routes. There were 39 routes that met these criteria for all twelve months in 2020-21. Over time, routes which meet these criteria change as airline networks and traffic levels vary.

Participating airlines report their overall monthly network performance where this is possible.

Total industry figures encompass all services operated by reporting airlines only. These airlines collectively carried over 95 per cent of total domestic passengers (regular public transport only) in 2019.

The method of capturing on time performance varies between airlines utilising different recording systems. Jetstar and Qantas jet aircraft use Aircraft Communication Addressing and Reporting System (ACARS) to electronically measure on time performance. Regional Express, Virgin Australia, Virgin Australia Regional Airlines and the Qantas non-jet fleet record on time performance manually using records from pilots, gate agents and/or ground crews.

After initial data is collected, aggregate reports are reviewed by participating airlines prior to publication.

Reports and detailed time series data in Microsoft Excel spreadsheet format are available from the BITRE website at: <http://www.bitre.gov.au/statistics/aviation/otphome.aspx>

Industry performance

For the year ended June 2021, on time performance over all routes operated by participating airlines (Jetstar, Qantas, QantasLink, Regional Express, Virgin Australia and Virgin Australia Regional Airlines) averaged 86.1 per cent for on time arrivals and 85.6 per cent for on time departures. Cancellations represented 7.6 per cent of all scheduled flights. The equivalent figures for 2019-20 were 76.4 per cent for on time arrivals, 78.0 per cent for on time departures and 4.3 per cent for cancellations. COVID-19 related travel restrictions have severely impacted the number of flights operated and the cancellation rate since March 2020.

The 2020-21 on time arrivals figure was above the long term average performance for all routes of 82.3 per cent and the on time departures figure was also above the long term average of 83.6 per cent. The rate of cancellations was higher than the long term average of 1.9 per cent.

The Virgin Australia network (Virgin Australia and Virgin Australia Regional Airlines combined operations) recorded 86.8 per cent for on time arrivals while the Qantas network (Qantas and QantasLink combined operations) recorded 85.5 per cent. Virgin Australia achieved the highest on time arrivals among the major domestic airlines at 87.2 per cent, followed by Qantas at 85.6 per cent and Jetstar at 85.2 per cent. Regional Express was the best performing regional airline for on time arrivals at 88.5 per cent, followed by QantasLink at 85.4 per cent and Virgin Australia Regional Airlines at 77.2 per cent.

The Qantas network recorded 86.2 per cent for on time departures and the Virgin Australia network recorded 83.9 per cent. Qantas achieved the highest level of on time departures among the major domestic airlines for 2020-21 at 87.2 per cent, followed by Virgin Australia at 84.2 per cent and Jetstar at 82.7 per cent. The regional airlines were led by Regional Express at 89.5 per cent, followed by QantasLink at 85.5 per cent and Virgin Australia Regional Airlines at 78.1 per cent.

Jetstar had the highest percentage of cancellations at 12.0 per cent during 2020-21, followed by Qantas at 10.0 per cent, Virgin Australia at 9.1 per cent, QantasLink at 4.5 per cent, Virgin Australia Regional Airlines at 3.2 per cent and Regional Express at 2.6 per cent.

Airlines' on time performance varies across the routes they serve. Individual route data by specific airline for 59 routes are shown on pages 8-20.

Of the 39 routes which met the criteria for on time performance reporting for all 12 months in 2020-21, the Mount Isa-Brisbane route had the highest percentage of on time arrivals at 91.7 per cent and the Brisbane-Mount Isa route had the highest percentage of on time departures at 93.8 per cent. The Darwin-Brisbane route had the lowest percentage of on time arrivals at 65.0 per cent and the lowest percentage of on time departures at 60.8 per cent.

Of the 39 routes which met the criteria for on time performance reporting for all 12 months in 2020-21, cancellations were highest on the Melbourne-Sydney route at 25.1 percent, followed by the Sydney-Melbourne route at 25.0 per cent, the Brisbane-Melbourne route at 21.2 per cent, the Melbourne-Brisbane route at 20.9 per cent and the Perth-Melbourne route at 19.8 per cent.

Of the 32 airports with on time performance reporting for all 12 months in 2020-21, Gladstone Airport recorded the highest percentage of on time arrivals at 91.1 per cent and Wagga Wagga Airport recorded the highest percentage of on time departures at 90.6 per cent. Darwin Airport recorded the lowest percentage of on time arrivals at 79.5 per cent and the lowest percentage of on time departures at 64.5 per cent. These figures only refer to reported routes and do not cover all flights at these airports.

Individual routes

On time performance is reported for all routes where the passenger load averages over 8000 passengers per month over the previous six months, and where two or more airlines operate in competition on those routes. There are now 58 routes which meet this definition. Over time, however, routes which meet this definition may change as airline networks and traffic levels vary.

Airports

On time performance is reported for all routes where the passenger load averages over 8000 passengers per month, and where two or more airlines operate in competition. The following data reports by airport against flights operated on those routes only. This year, 8 major city airports and 29 regional city airports are covered.

Airport	Arrivals			Departures

Definitions

On time arrival	A flight arrival is counted as "on time" if it arrived at the gate before 15 minutes after the scheduled arrival time shown in the carriers' schedule. Neither diverted nor cancelled flights count as on time.
On time departure	A flight departure is counted as "on time" if it departs the gate before 15 minutes after the scheduled departure time shown in the carriers' schedule.
Cancellation	A flight removed from service within 7 days of scheduled departure is regarded as a cancellation.
On time departure percentage	The percentage of on time departures is measured against the number of departures <i>operated</i> on any particular sector.
On time arrival percentage	The percentage of on time arrivals is measured against the number of arrivals <i>operated</i> on any particular sector.
Cancellation percentage	The percentage of cancellations is measured against the number of services <i>scheduled</i> on any particular sector.
